

Day-15 (nodejs - 1)

Friday, 9 May 2025 7:14 PM

JS engine → fast why? ⇒ (C++) ✓

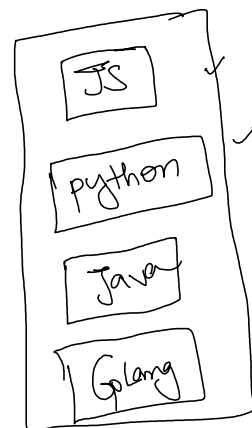

Install NodeJS

node → version

npm -v

npm → node package manager (?)

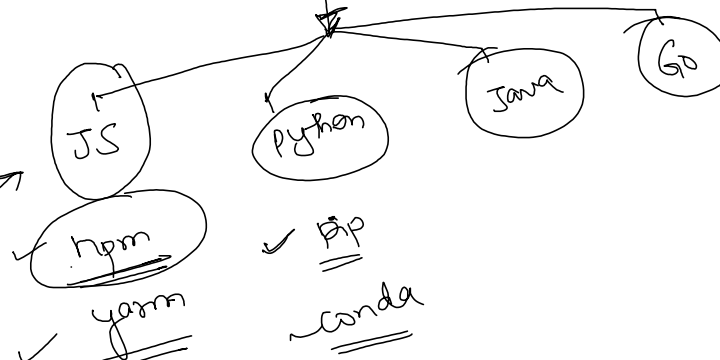

Central Package Managers
Cpm

NPM

YARN

How do we run

#

Browser

(internet)

Window

① go →
(global object)

②

folder

file system

③

document

web api

DOM

#

node JS

REPL

Read
eval
loop
print

①

Window

go → global

②

machine

folder → machine

file system

③

document

*

npm init

package.json

enter

3/4

✓

npm init -y

log yes

①

CommonJS

②

module

module.exports

export

&

import

&

require

React
