NodeJS → RUNTIME ENV.

- JS without Browser
- server
- CLI
- native apps

node + enter ⇒ REPL

window X global ✓

BROWSER

global object = window

NODE JS

global object = global
same ✓

→ file system X
→ document ✓

file system X
document X

npm → node package manager

node index.js ✓
or
node index ✓ } Run

npm init or npm init -y
↳ package.json

↳ "start": "nodemon index.js"

install

index.js

math.js

require (commonJS) → fn1 → module.e
import (ES6) fn2

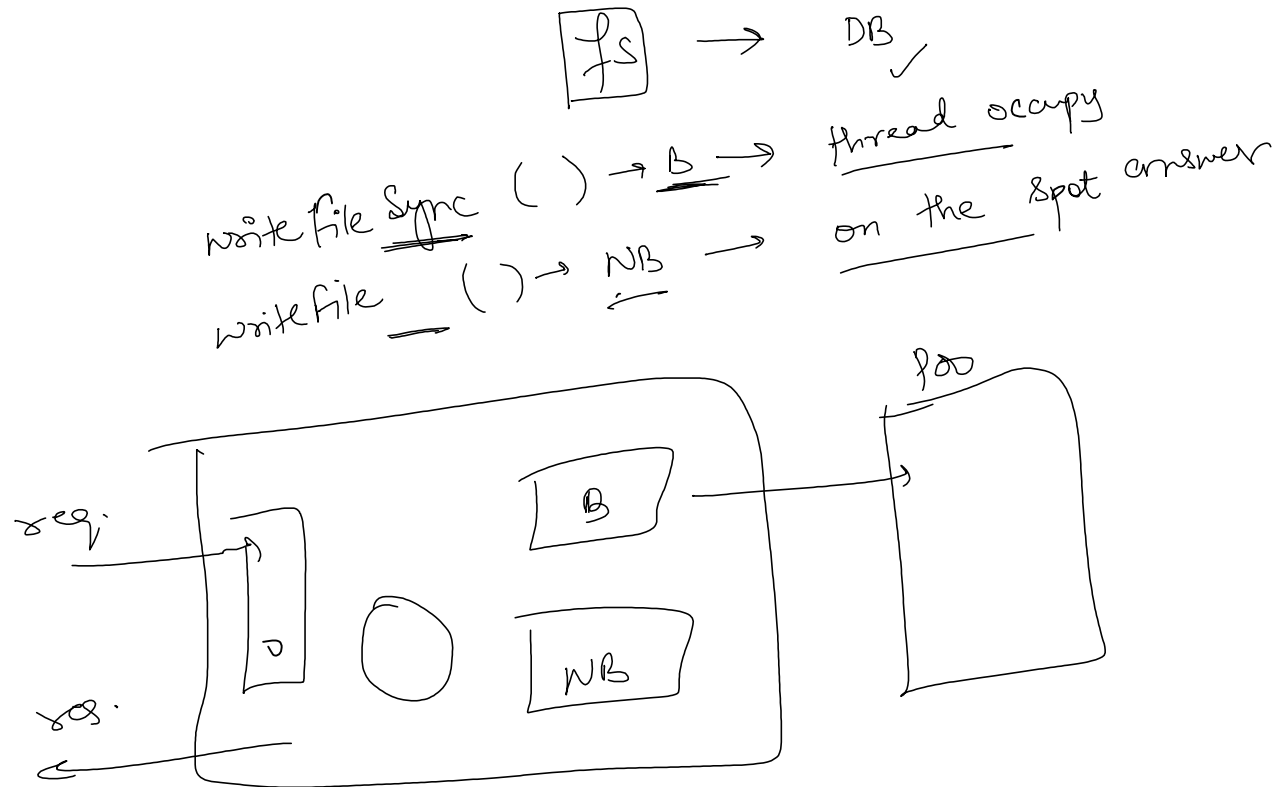

index.js

math.js

const {s1, s2} = require("./math")
s1() export or export default s2
 ↑ function sum() {
 def("Balle Balle")

input {s1}, s2 from "math.js" }
 s2()

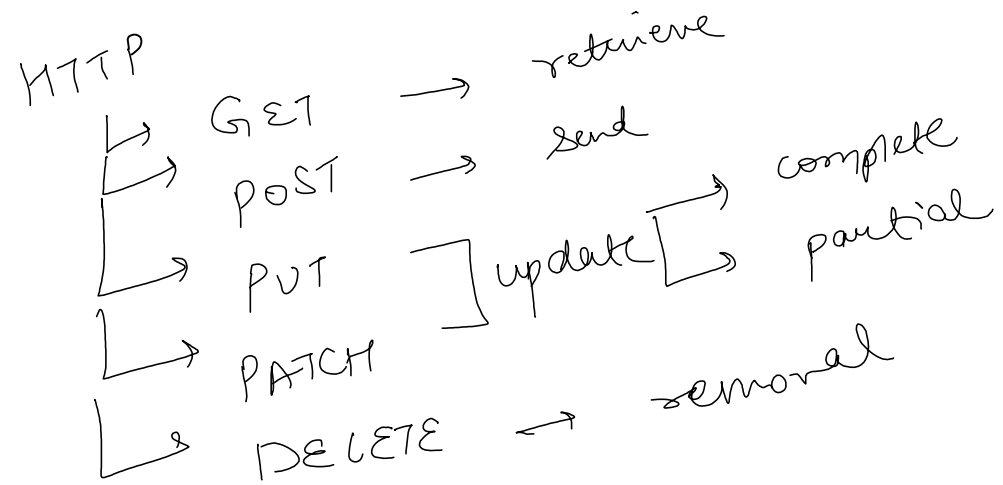

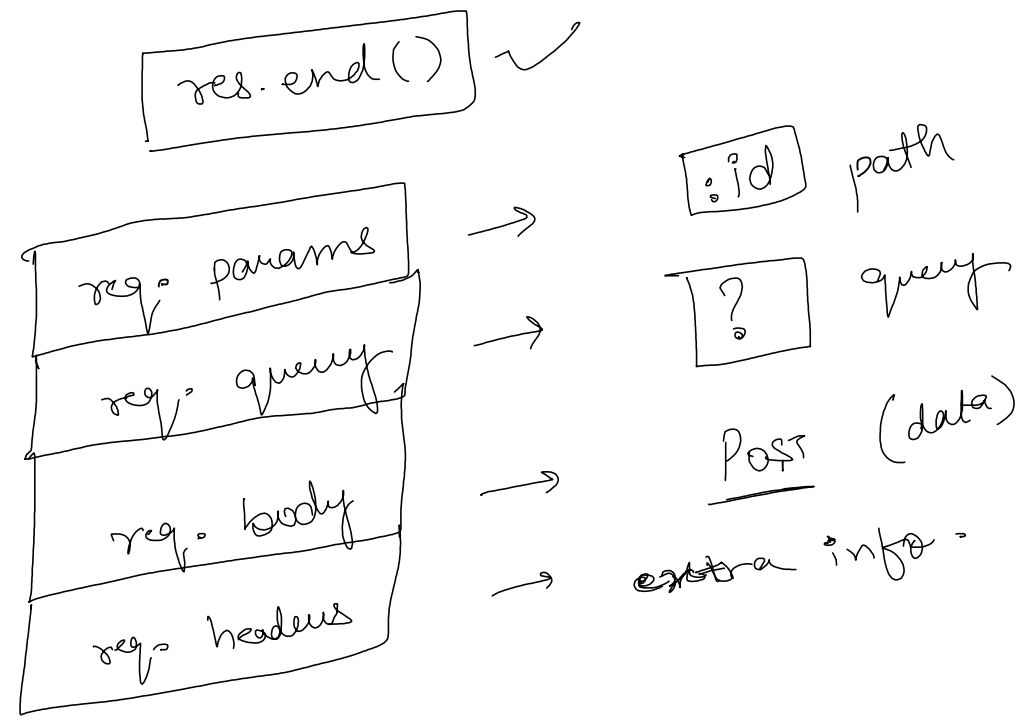

module.exports = sam;
 " = {sam 1, sam 2};

require('fs')
 {
 "fs" "http"
 }

http → way rule { http, https, ws }

http.createServer(req, res)
 (n) ⇒ { }
 ↳ request listener

✓

```

const express = require('express')
const app = express() // entire application
// req, res
// (req, res) => { }
  
```

app.get("/name", ...)
app.listen(8080, ...)

thunder client

→ POST
→ PUT
→ PATCH
→ DELETE

✓ REST → way of writing code

→ common ground

method + path ⇒ Task
